

Credit Card Customer Report

The figure consists of four separate charts arranged in a 2x2 grid:

- Top Left Chart:** A bar chart showing sales volume by quarter. The x-axis categories are Q1, Q2, Q3, and Q4. The bars show values of approximately 31M, 26M, 26M, and 26M respectively.
- Top Right Chart:** A bar chart showing sales volume by gender. The x-axis categories are F (Female) and M (Male). The bars show values of approximately 31M and 26M respectively.
- Bottom Left Chart:** A bar chart showing sales volume by age group. The x-axis categories are Low, Med, High, and All. The bars show values of approximately 26M, 26M, 26M, and 31M respectively.
- Bottom Right Chart:** A bar chart showing sales volume by platinum status. The x-axis categories are Gold, Silver, Blue, and Platinum. The bars show values of approximately 26M, 26M, 26M, and 26M respectively.
